REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: The following combination of claimed features in independent claims 1 and 30 were not found in the prior art: the prior art taught flushing of instructions on an irregularity such as an incorrectly predicted branch instruction; and an alternative to flushing was to mark instructions as canceled and at write-back not writing to registers results for the instructions that were marked canceled. However, the claimed further combination features of detecting instruction irregularities, generating an irregularity indication and a flush instruction where the irregularity indication was used to initiate flush mode and whereas the flush instruction, when received in the functional stage or unit that was set in flush mode, reset the flush mode in the functional stage/unit was not found in the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Eric Coleman whose telephone number is (703) 305-9674. The examiner can normally be reached on Monday-Thursday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Eddie Chan can be reached on (703) 305-9712. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
